Steven Alan Emmanuel Kiel Urba Centurion. Tied for most fuel efficient vehicle, +/- 200 mpg.

Green Grand Prix Corporation Yes. It was easily over 200mpg.
Crazy but absolutely true.

Green Grand Prix Corporation His transmission was perfectly suited to the short course. He said he was rupping between 1999 suited to the short course. He said he was running between 1800 and 2300 rpm on the uphill section. 17hp diesel. The mpg's are consistent with what he normally gets. This is an impressive car.
